

Standards | Activity #3

Standardised approaches

What work practices would benefit from a common approach/standard?

E.g., Quality control for assessing the quality of the service provided to beneficiaries; Training practitioners on the same skills; Assessing practitioners' skills; Certifying practitioners' skills.

Common skills

What skills are needed to be a “good practitioner”?

You may want to distinguish between ‘must have’ and ‘nice to have’ skills, as well as context-specific skills.

Community Unbundling | Activity #4

Actors

What actors are already working to respond to the challenge?

E.g. Organizations that are providing opportunities for practitioners' growth, working on standards, providing support to practitioners...

Capacities

What capacities do the target audience (practitioners) and other community actors have that can contribute to solving the challenge?

E.g. Organize campaigns, make video tutorial, participate in crowdfunding,

Assets

What available assets (open, or owned by other organizations or individuals) can help solve the challenge?

E.g. Tools, training programs, informal groups...
